PURE ELECTRIC PASSENGER MINI BUS

Shanghai Autos PTY. Centro Comercial Costa Sur, Local 28, Juan Díaz, Ciudad de Panamá, Panamá
Celular: +507 6351-5786 / 6937-0170 Teléfono: 385-6171 e-mail: info@shanghai-autospty.com

LONG ENDURANCE AND STRONG POWER

- 310km range and fast charging (from 30% to 80%) takes 0.5h, capable of handling both long and short transportation with ease.
- It has a powerful output of 108PS and a torque of 240N.m.
- Wind resistance coefficient is only 0.332, more power saving.
- Equipped with a 53kwh battery from CATL and a low-temperature electric heating system, it also has an IP68 dust-proof and waterproof rating.

LARGE CARGO SPACE

- The extra-long cargo space, which is 3.05m in length and has a capacity of 7.6m³, enables the transportation of longer goods.
- The tailgate features a Dual-Door design, combined with an Ultra-Low cargo bed height of 0.6 Meters, making loading and unloading more convenient.
- Capable of carrying passengers and cargo, with spacious interior for enhanced comfort.

INTELLIGENT COCKPIT

The design of the intelligent central control combined with physical buttons is more user-friendly. It offers a pure electric driving experience with simple and interesting operation.

PASSENGER-ORIENTED COMFORT IN A LONG-NOSE CAB

- Spacious High-Roof cab with long front design
- Ergonomic seat design with fabric upholstery for enhanced Anti-Slip support.
- The vehicle boasts over 12 storage spaces, including an overhead storage compartment in the cabin for easy access to small items.

9-14-SEAT SPACIOUS LAYOUT & 7m³ EXPANSIVE CARGO SPACE

- 9-14 seat layout for a more spacious interior.
- The second and third row seats can be flexibly folded.
- The interior supports various modifications, offering endless possibilities.

EXTREMELY SAFE

The cockpit features a groundbreaking long-nose styling design, and with a high-strength steel body, it offers supreme safety.

The design of an integrated rear axle

The battery is designed in an embedded manner

High-strength steel cage-type body structure

Standard ABS+EBD

Hill-start Assist Control
